

September 23-25 2025

Crossroads in Strong Gravity Challenges & Future Directions

Numerical Relativity - Theories of Gravity Beyond GR

Modelling of Gravitational Wave sources

Environmental effects - Stellar Evolution - Physics of Compact Stars

Angelica Albertini - Nils Anderson - Stefanos Aretakis - Swetha Bagwat

Susanna Barsanti - Laura Bernard - Ramiro Cayuso - Francesco Di Filippo - Francisco Duque

Astrid Eichhorn - Rossella Gamba - Leonardo Gualtieri - Aron Held - Jose Jaramillo - Kostas Kokkotas

Guillermo Lara - Luis Lehner - Aleksandra Olejak - Carlos Pelenzulea - Laura Sberna

Patricia Schmidt - Marteen Van de Meent - Miguel Zilhao - Shuang-Yong Zhou
